Skills

Technical Skills

1. HTML/CSS:

- HTML (Hyper Text Markup Language): The standard markup language for creating web pages.
- CSS (Cascading Style Sheets): Used to style and layout web pages.

2. JavaScript:

- Essential for creating interactive and dynamic web content.
- Knowledge of frameworks and libraries like React, or Vue.js is beneficial.

3. Databases:

- Understanding of SQL and MongoDB databases.

5. Version Control/Git:

- Proficiency in Git for version control and collaboration (GitLab).

6. Responsive Design:

- Experience with responsive design principles to ensure websites work on all devices.

7. APIs:

- Knowledge of how to use and integrate APIs (RESTful services, GraphQL).

Soft Skills

1. Problem-Solving:

- Ability to troubleshoot and solve issues efficiently.

2. Communication:

- Clear communication skills for collaborating with team members and clients.

3. Time Management:

- Managing time effectively to meet deadlines.

4. Adaptability:

- Ability to learn new technologies and adapt to changes in the tech landscape.

Tools and Platforms

1. Development Environments:

- Integrated Development Environments (IDEs) like Visual Studio Code, or Sublime Text.

2. Build Tools:

- Familiarity with build tools and task runners (Webpack, Gulp, npm scripts).

3. Cloud Services:

- Basic knowledge of cloud platforms (AWS, Azure, Google Cloud) and deployment services.
